## 1. 你認為在四個策略性地區內有什麼重要的社區需要？

What are the major community needs to be addressed in the four strategic urban areas?

Recreational space and comfortable and convenient connection within the district, while keeping the authentic culture of the districts (because of the “copying” of shopping malls in the areas), and maintaining environmental quality. Also, accessibility to the waterfront.

## 2. 你同意在策略性地區可以透過發展地下空間來解決社區需要嗎？

Do you agree the major community needs could be addressed by underground space development in the strategic urban areas?

Yes but should avoid over-commercialization of the underground space which could only develop economically but not the other needs, which often happens for many planning projects.

## 3. 你對地下空間發展有甚麼願景和期望？

What are your vision and expectation of underground space development?

I expect the space could be well-designed and innovative like the foreign designs and could comply as much green infrastructure as possible, to combat environmental challenges.

## 4. 你對在四個策略性地區發展地下空間有甚麼關注？

What are your concerns on underground space development in the four strategic urban areas?

Economic concern, and environmental impact on the existing elements, e.g. vegetation on the surface. I hope the space developed can really meet local needs.

## 5. 你對四個策略性地區的地下空間發展還有其他意見嗎？

Do you have other comments on underground space development in the four strategic urban areas?

## 1. 你認為在四個策略性地區內有什麼重要的社區需要？

What are the major community needs to be addressed in the four strategic urban areas?

They share in common that they have already been properly developed to a highly centralized area, with a pressing need of land for various recreational purposes and improving the pedestrian flow and the overall pedestrian experience.

## 2. 你同意在策略性地區可以透過發展地下空間來解決社區需要嗎？

Do you agree the major community needs could be addressed by underground space development in the strategic urban areas?

Yes. I do agree that this is one of the proper solution in addressing the major community needs in the strategic areas. The major concern for these areas is mostly the shortage of land to address and fulfill the demands for the whole community. I do think US development is suitable for that.

## 3. 你對地下空間發展有甚麼願景和期望？

What are your vision and expectation of underground space development?

I expect the US development to be vibrant yet full of their own unique characteristics. The most important thing is to integrate their unique local characteristics to the US development, which attracts people to come and use.

## 4. 你對在四個策略性地區發展地下空間有甚麼關注？

What are your concerns on underground space development in the four strategic urban areas?

The major concerns are to be about the connectivity issue with the upper ground spatial usage and whether the US development could have planned with proper usages to fulfill the demand for the local communities.

## 1. 你認為在四個策略性地區內有什麼重要的社區需要？

What are the major community needs to be addressed in the four strategic urban areas?

Pedestrian congestion and overdemand for above ground usage is definitely of important concern, yet the community would look for a communal beneficial project, especially provision of public facilities, as underground space should serve more than connection.

## 2. 你同意在策略性地區可以透過發展地下空間來解決社區需要嗎？

Do you agree the major community needs could be addressed by underground space development in the strategic urban areas?

I agree, as the strategic areas are highly congested as stated in the study.

## 3. 你對地下空間發展有甚麼願景和期望？

What are your vision and expectation of underground space development?

I hope underground development would be more than an infrastructure project, but a positive community project.

## 4. 你對在四個策略性地區發展地下空間有甚麼關注？

What are your concerns on underground space development in the four strategic urban areas?

The entrance position would not affect existing uses.

## 5. 你對四個策略性地區的地下空間發展還有其他意見嗎？
